GENERAL INSTRUCTIONS

1. ACP 113(AI), CALL SIGN BOOK FOR SHIPS, is an UNCLASSIFIED Allied Communication Publication.
2. This publication contains:
  - a. A list of International Call Signs and hull numbers for ships under military control.
  - b. A list of two letter Tactical Air Navigation (TACAN) Identifiers assigned to TACAN-equipped military ships.
  - c. A limited listing of Interim two letter TACAN identifiers assigned to fixed and land mobile beacons pending assignment of three letter identifiers. These identifiers are listed in ACP 113(AI) for record keeping purposes and to avoid duplication of assignments pending allocation of three-letter identifiers.
  - d. A list of Task Forces and their allocations.
3. ACP 113(AI) has been prepared as follows:
  - a. Decode  
Section 1 – Alphabetically by International Call Sign.  
Section 2 – Alphabetically by TACAN Identifiers.
  - b. Encode  
Section 3 – Indefinite and Collective Call Signs for ships and ocean stations.  
Section 4 – Indefinite and Collective Call Signs for merchant ships.  
Section 5 – (and sub-sequent Sections) – National sections arranged alphabetically by nation, with ships in each section listed alphabetically. Certain national sections are divided into sub-sections, listing ships by service and/or by name and class. Ships and fixed and land mobile beacons assigned TACAN Identifiers are listed alphabetically at the end of each national “NAVAL SHIPS (By Name),” or as the last sub-section of each national section.  
  
Annex A – A listing of Task Forces and their allocation.  
  
Annex B – Decoding of Visual Callsigns allocated to ships, and certain authorities of European NATO Countries and the Countries of the British Commonwealth of Nations (except Canada).
4. Following universal maritime practice, ships are listed in the Encode Sections alphabetically by first name, word, or initial.

5. The International Call Signs are to be used for:
  - a. All non-military communications.
  - b. Military communications employing unencrypted call signs.
6. Instructions for the assignment and use of TACAN Identifiers are contained in individual national sections or other national publications. Each nation requiring TACAN Identifiers has been allocated spare identifiers for emergency assignments. Additional identifiers have been reserved for allocation to individual nations as required.
7. National assignment authorities forwarding amendments to the preparing agency for incorporation into this publication are to include the English translation of the amending instructions. New listings are to be forwarded in their ENCODE form and are to include the International Call Signs, and where applicable, TACAN Identifiers.
8. Proposed amendments to this publication should be forwarded as follows:
  - a. CCEB ACP Coordinators directly to the US Military Communications Electronics Board (USMCEB WASHINGTON DC)
  - b. NATO Nations ACP Coordinators via NATO ACP Coordinator (NAMILCOM).
  - c. Other Nations via Australian ACP Coordinator.
9. Amendments will be promulgated by serially numbered corrections. Printed changes/revisions will be published on an annual basis (May of each year). Distribution can be expected approximately four months after print date.
